

WiziLegal Website Packages

WiziLegal has partnered with Automation Creations, Inc. (ACI), a Website design and development firm to provide high-quality and professional technology solutions for attorneys.

Joomla!® Content Management Websites

Joomla Websites allow for easy content management (updating text, adding images and video, etc.) through an intuitive content management interface.

What is Joomla?

Joomla is an award-winning content management system (CMS), which enables you to build Websites and powerful online applications. Many aspects, including its ease-of-use and extensibility, have made Joomla the most popular Website software available.

A content management system is software that keeps track of every piece of content on your Website, much like your local public library keeps track of books and stores them. Content can be simple text, photos, music, video, documents, or just about anything you can think of. A major advantage of using a CMS is that it requires almost no technical skills or knowledge to manage. Since the CMS manages all your content, you don't have to.

Basic Joomla Package – Only \$600*

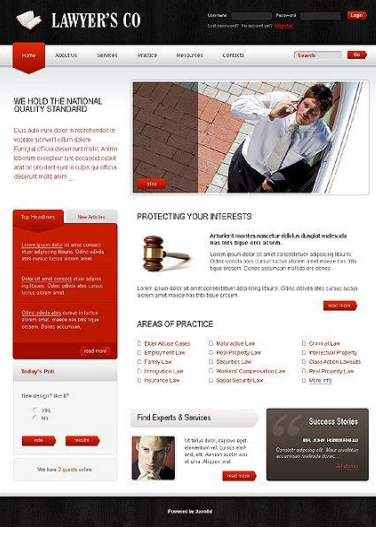

The Basic Joomla Package provides everything you need to get started quickly along with the power to accommodate your future needs.

The Basic Joomla Package includes the following:

- **Choice of a Joomla Template:** Includes basic template setup with no custom changes or component configuration. See below for template choices and prices.
- **Addition of Logo:** A logo provided by the client in electronic format.
- **Basic Navigation:** Configuration of basic navigation for the site.
- **Up to five (5) Pages of Content:** All content, images, etc. must be provided in electronic format. Content will not be revised or created.
- **Meta Tags:** Meta tags will be included in the site structure. These include page titles, descriptions, and keywords. The client must provide all meta data.
- **Google Analytics Account:** A Google Analytics account will be created and configured to an existing Gmail email address already in use or a new Google Analytics account will be set up.

- **DNS Record Management***: Help configuring DNS records, if they are hosted with an external provider.
- **Joomla Training Manual**: Joomla training manual provided in electronic format. Support available via email or phone at \$75 per hour as needed.
- **Email Hosting****: Hosted email accounts are available upon request.

Available Template Designs: Each client will select from one of the following template designs. Any Joomla template can be used, however, additional charges may apply depending on the complexity and modules used within the template.

<p>Design Layout #1 Cost \$57.00</p> 	<p>Design Layout #2 Cost \$60.00</p>  <p><i>Note: This template utilizes video or images in the header, which the client must provide.</i></p>	<p>Design Layout #3 Cost \$55.00</p> 
---	--	---

*** Joomla Packages Require One (1) Year of Website Hosting with ACI:** The price for hosting is \$15.95/mo. or \$191.40/yr. If another Joomla hosting provider is preferred, the package prices will increase by \$125 to offset the additional time needed to coordinate with the external Joomla hosting provider. (Various hosting providers use different versions of Joomla, which can cause issues with plug-in modules and versions of PHP code.)

The Website package price does not include the price of the Joomla template. The cost of the template will be billable to the client.

External Joomla Hosting: If the site will be hosted externally, it will be the responsibility of the client to verify that the hosting provider can support Joomla.

Super administration access to the database and Website must be provided. The new site will be developed on the third party's server to avoid transition/migration issues. If a client plans to move hosting to ACI, ACI will

develop the new Website on ACI servers, then work with the current hosting provider to edit DNS records to point to ACI servers upon site launch.

Joomla Migration Services: This would be quoted on a case-by-case basis. If there were no issues with Joomla versions or modules, it would take about an hour to complete.

**** Email Hosting:** Email hosting services can only be provided if ACI hosts the site.

Silver Joomla Package – Only \$960*

The Silver Joomla Package includes everything from the Basic Joomla Package plus a few extras.

The Silver Joomla Package includes the following:

- **Up to five (5) Additional Pages of Content (Max. of 10 Pages Total):** All content, images, etc. must be provided in electronic format. Content will not be revised or created.
- **Configuration of Up to three (3) Free Joomla Modules:** Examples include: calendar of events, maps/directions, search, etc.
- **One (1) Hour of Joomla Training:** Training is provided via conference call.

Gold Joomla Package – Only \$1,440*

The Gold Joomla Package includes everything from the Silver Joomla Package plus a few extras.

The Gold Joomla Package includes the following:

- **Up to five (5) Hours of Joomla Module Configuration:** All paid Joomla module costs are the responsibility of the client. Examples of modules are as follows:
 - JCal Pro - Events Calendar - \$29
 - GCalendar - Events Calendar - Free
 - Acajoom - Newsletter - \$172.65
 - Chrono Forms - Email Forms - \$25
 - Joomap - Map - Free
 - eWeather - Weather - Free
 - SlideShow Pro - Photo Gallery - \$98
 - Google Map - (Plug-in) Map - Free
 - MyBlog - Full-featured Blog - \$45

- **Website Search Engine Optimization (SEO):** The new site will be optimized for search engine placement through the following methods:
 - Enhanced page titles, descriptions, and keywords
 - Content keyword placement
 - Recommendations for reciprocal link creation

Traditional (Non-Content Management) Websites

This type of Website requires technical knowledge (HTML, JavaScript, CSS-P, and general programming languages (ASP, ASP.NET, PHP, etc.) in order to manage it. The benefit, however, is unlimited flexibility and a large number of inexpensive hosting options.

Basic Website Package – Only \$695*

The Basic Website Package provides everything you need to get started quickly along with the power to accommodate your future needs.

This is a static Website and does not include data-driven/database elements.

The Basic Website Package includes the following:

- **Addition of Logo:** A logo provided by the client in electronic format.
- **Basic Navigation:** Configuration of basic navigation for the site.
- **Up to five (5) Pages of Content:** All content, images, etc. must be provided in electronic format. Content will not be revised or created.
- **One (1) Email Form:** Configuration of a Web form with up to five (5) form fields.
- **Meta Tags:** Meta tags, provided by the client, will be included in the site. These include page titles, descriptions, and keywords.
- **Google Analytics Account:** A Google Analytics account will be created and configured to an existing Gmail email address already in use or a new Google Analytics account will be set up.
- **DNS Record Management*:** Help configuring DNS records, if they are hosted with an external provider.
- **Email Hosting**:** Hosted email accounts are available upon request.

** This price provides for no more than seven (7) hours of total work (this includes template design, content creation, and all items listed above). Additional hours can be purchased for \$75 per hour. The client will receive a basic template design with minimal to no changes. The template needs to be finalized within three (3) hours or less to meet this goal.*

External Hosting: *If the site will be hosted externally, it will be the responsibility of the client to arrange third party-hosting services. In addition, access to the Website files must be provided. The new site will be developed on the third party's server to avoid transition/migration issues. If a client plans to move hosting to*

ACI, ACI will develop the new Website on ACI servers, then work with the current hosting provider to edit DNS records to point to ACI servers upon site launch.

**** Email Hosting:** *Email hosting services can only be provided if ACI hosts the site.*

Custom Website Package – Fixed Bid or Per Hour

If you have larger, initial aspirations for your Web presence, a custom Website package can be created to meet your needs.
